

- + Highly efficient (documented)
- + Sturdy and reusable – again and again
- + Easy to clean and nest
- = **Economical, Efficient and Convenient**

Due to its unique design ensuring maximum air penetration, a long life span and easy handling, Neptun Freezerspacers are used worldwide by leading enterprises since 1984

The unique 50 mm high open profile-design of the Neptun Freezerspacer ensures maximum air-flow in freezing and tempering situations. Due to the robust structure in High-Density Polyethylene, the Freezer spacer withstands temperatures between -50 and +90 0C and is resistant to most acids and chemicals, thereby ensuring a long lifespan even in the toughest working environments. The open profile of the Neptun Freezerspacer makes it easy to clean and nests well when not in use.

For further documentation, we refer to test results from the Technical University in Denmark.

Technical specs.

Item No.	Length mm/inch	Width mm/inch	Height mm/inch	Nesting Height mm/inch	Weight/pcs Gr/Lbs	Material	Max-Load Kg/Lbs	Pcs/pallet	M³ incl. pallet	KG/Lbs incl. pallet
35.312.07	1200/47"	1000/40"	50/2"	18,4 / 0,7"	3680/8	HDPE	3000/6600	100	2,4	386/851

Standard colours; Black or blue – other colours can be supplied on request

- Designed for temperature sensitive applications
- Air circulates rapidly through the cavities of the spacer ensuring a faster and efficient freezing of the whole pallet load.
- Maximum air penetration in Freezing and Tempering operations
- Effective at temperatures range between -50° below to plus +90°
- Open profile design allows for easy cleaning
- Nestable for space saving
- 100% recyclable
- High density polyethylene
- For indirect food contact. (spacers for direct food contact can be supplied on request)

Due to its unique design ensuring maximum air penetration, a long life span and easy handling, Neptun Freezer-spacers are used world-wide by leading enterprises since 1984
